

3600mAh Standard Charging Rate 18650 Rechargeable Lithium Battery

Our Product Introduction

for more products please visit us on enookbattery.com

Basic Information

- Place of Origin: China
- Brand Name: Enook
- Certification: CE, RoHS, MSDS
- Model Number: ENOOK3600
- Minimum Order Quantity: 100
- Price: 2.5
- Packaging Details: 200pcs/carton
- Delivery Time: 3 days
- Payment Terms: T/T, Paypal
- Supply Ability: 100,000/day

Product Specification

- Standard Charging Rate: 0.5C
- Standard Discharge Rate: 3C
- Typical Capacity: 3600mAh
- Discharge Rate: 20A
- Battery Size: 18 * 18 * 65 Mm
- Minimum Capacity: 3450mAh
- Size: 18mm X 65mm
- Diameter: 18.6 +0 -0.3mm
- Highlight: 18650 Rechargeable Lithium Battery, 3600mAh Rechargeable Lithium Battery

Product Description

Product Description:

18650 High Capacity Battery Cell

Product Overview

The 18650 Battery Cell is a high capacity lithium ion secondary battery, which is widely used in various electronic devices such as laptops, flashlights, and power banks. With a discharge rate of 20A, this battery cell is designed to provide high power output for your devices. The compact size of 18mm x 65mm makes it easy to fit into different devices, making it a popular choice among consumers.

High Capacity and Long Lifespan

The 18650 Battery Cell has a typical capacity of 3600mAh, which means it can store a large amount of energy and provide long-lasting power for your devices. This makes it ideal for high-drain devices that require a constant and reliable power source. With its high energy density, this battery cell also has a longer lifespan compared to other rechargeable batteries, making it a cost-effective choice in the long run.

High Discharge Rate and Rechargeable

The 18650 Battery Cell has a high discharge rate of 20A, which means it can deliver a high amount of power in a short period of time. This makes it suitable for devices that require a burst of power, such as power tools and electric vehicles. Additionally, this battery cell is rechargeable, allowing you to use it multiple times before needing to replace it. This not only saves you money, but it is also more environmentally friendly.

Compact Size and Easy to Use

Measuring at 18mm x 65mm, the 18650 Battery Cell has a compact size that makes it easy to carry around and fit into different devices. Its cylindrical shape also allows for easy insertion and removal from devices. Whether you are using it for your flashlight during a camping trip or for your laptop at work, this battery cell is designed to provide convenience and ease of use.

Conclusion

The 18650 High Capacity Battery Cell is a reliable and high-performing energy source for your electronic devices. With its high capacity, discharge rate, and energy density, it is able to provide long-lasting and powerful performance. Its compact size and rechargeable feature make it a convenient and cost-effective choice for consumers. Trust in the 18650 Battery Cell to power your devices and keep you going.

Features:

Product Name: 18650 Battery Cell

Operating Temperature: -20°C To 60°C

Standard Charging Rate: 0.5C

Voltage: 3.7V

Net Weight: 50g

Discharge Rate: 20A

18650 Lithium Ion Secondary Battery

18650 High Capacity Battery Cell

Lithium Ion Rechargeable Battery Cell

Technical Parameters:

Product Name	Lithium Ion Rechargeable Battery Cell	
Product Attributes	Model Number	18650 Lithium Ion Cylindrical Battery
	Voltage	3.7V
	Diameter	18.6 +0 -0.3mm
	Size	18mm X 65mm
Weight	50g	
Capacity	3600mAh	
Discharge Rate	20A	
Standard Discharge Rate	3C	
Minimum Capacity	3450mAh	
Quick Charge Rate	1C	
Operating Temperature	-20°C to 60°C	

Applications:

Enook ENOOK3600 18650 Battery Cell

Product Description:

The Enook ENOOK3600 is a high quality 18650 lithium ion rechargeable battery designed for various electronic devices. This 18650 Li-Ion cell is a cylindrical battery with a size of 18mm x 65mm, making it compact and portable. It has a high capacity of 3600mAh and a minimum capacity of 3450mAh, ensuring long-lasting power for your devices. With a standard discharge rate of 3C, it can provide stable and consistent performance.

Product Attributes:

Brand Name: Enook

Model Number: ENOOK3600

Place of Origin: China

Certification: CE, RoHS, MSDS

Minimum Order Quantity: 100

Price: \$2.5

Packaging Details: 200pcs/carton

Delivery Time: 3 days

Payment Terms: T/T, Paypal

Supply Ability: 100,000/day

Capacity Mah: 3600mAh

Operating Temperature: -20°C to 60°C

Minimum Capacity: 3450mAh

Size: 18mm x 65mm

Standard Discharge Rate: 3C

Product Features:

High capacity of 3600mAh for long-lasting power

Wide operating temperature range of -20°C to 60°C, suitable for various environments

Fast charging capabilities, saving time and increasing efficiency

Environmental friendly and safe to use

Durable and reliable, with a long cycle life

Versatile and can be used in a wide range of electronic devices

Compact and portable design, making it easy to carry around

Cost-effective option for powering your electronic devices

Product Applications:

The Enook ENOOK3600 18650 Battery Cell is ideal for use in various electronic devices such as:

Laptops

Power banks

Flashlights

Electric vehicles

Remote controls

Electronic toys

Portable speakers

And more

It is perfect for everyday use, outdoor activities, and emergency situations.

Product Packaging:

The Enook ENOOK3600 18650 Battery Cell is packaged in a sturdy and secure manner to ensure its safe delivery. The packaging details are as follows:

Number of Batteries	Packaging Details
1-100	Individual plastic case packaging
101-500	Individual plastic case packaging, with 10 batteries per box
501-1000	Individual plastic case packaging, with 50 batteries per box
1001-10000	Individual plastic case packaging, with 100 batteries per box
10001 and above	Individual plastic case packaging, with 200 batteries per carton

Conclusion:

The Enook ENOOK3600 18650 Battery Cell is a reliable and efficient power source for your electronic devices. With its high capacity, wide operating temperature range, and fast charging capabilities, it is a versatile and cost-effective option. Trust Enook to provide you with high quality 18650 lithium ion rechargeable batteries for all your power needs.

Customization:

18650 Battery Cell Customization Service - Enook ENOOK3600

Product Attributes:

Brand Name: Enook

Model Number: ENOOK3600

Place of Origin: China

Certification: CE, RoHS, MSDS

Minimum Order Quantity: 100

Price: 2.5
Packaging Details: 200pcs/carton
Delivery Time: 3 days
Payment Terms: T/T, Paypal
Supply Ability: 100,000/day
Typical Capacity: 3600mAh
Voltage: 3.7V
Minimum Capacity: 3450mAh
Volt: 3.6
Quick Charge Rate: 1C

Enook offers customized services for our 18650 Secondary Lithium Ion Battery, also known as ENOOK3600, to meet your specific needs and requirements. With our customized service, you can have a 18650 Battery Pack that is tailor-made for your application. Our batteries are manufactured in China and have obtained CE, RoHS, and MSDS certifications, ensuring their safety and quality. The minimum order quantity for our ENOOK3600 battery is 100 pieces, and the price is set at 2.5 USD per piece. Each battery is carefully packaged with 200 pieces per carton, and we guarantee a delivery time of 3 days. We accept various payment terms, including T/T and Paypal, to provide you with a convenient and secure transaction process.

With a supply ability of 100,000 pieces per day, we can fulfill your bulk orders efficiently and promptly. Our ENOOK3600 battery has a typical capacity of 3600mAh and a voltage of 3.7V, providing long-lasting power for your devices. The minimum capacity of our battery is 3450mAh, and it operates at a volt of 3.6, ensuring stable and reliable performance. Additionally, our battery has a quick charge rate of 1C, allowing for fast and efficient charging.

Choose Enook for your 18650 Lithium Ion Secondary Battery needs and experience our top-notch customization service. Contact us now to discuss your customized battery requirements and get a quote!

Packing and Shipping:

Packaging and Shipping of 18650 Battery Cell

When it comes to packaging and shipping the 18650 Battery Cell, we take great care to ensure that the products arrive safely and in optimal condition to our customers. Our packaging materials are of high quality and designed to protect the battery cells from any potential damage during transit.

Packaging:

The 18650 Battery Cell is first wrapped in protective foam to prevent any scratches or dents.

It is then placed in a sturdy cardboard box with ample padding to absorb any impact during shipping.

The box is sealed with high-quality tape to prevent any accidental opening.

Each package is labeled with the necessary warning and handling instructions.

Shipping:

We offer reliable and efficient shipping services to ensure timely delivery of your order. Here are the steps we take to ship your 18650 Battery Cell:

Once your order is confirmed, we carefully pack the battery cells in their respective boxes.

The packages are then handed over to our trusted shipping partner.

We provide tracking information so you can keep an eye on your package and know when to expect its arrival.

In case of any delays or issues, our customer service team is always available to assist you.

At **18650 Battery Co.**, we understand the importance of proper packaging and shipping to ensure the safety and satisfaction of our customers. Rest assured, your 18650 Battery Cell will be delivered to you in top condition!
